

User Manual: Danprel Resource Allocation Console

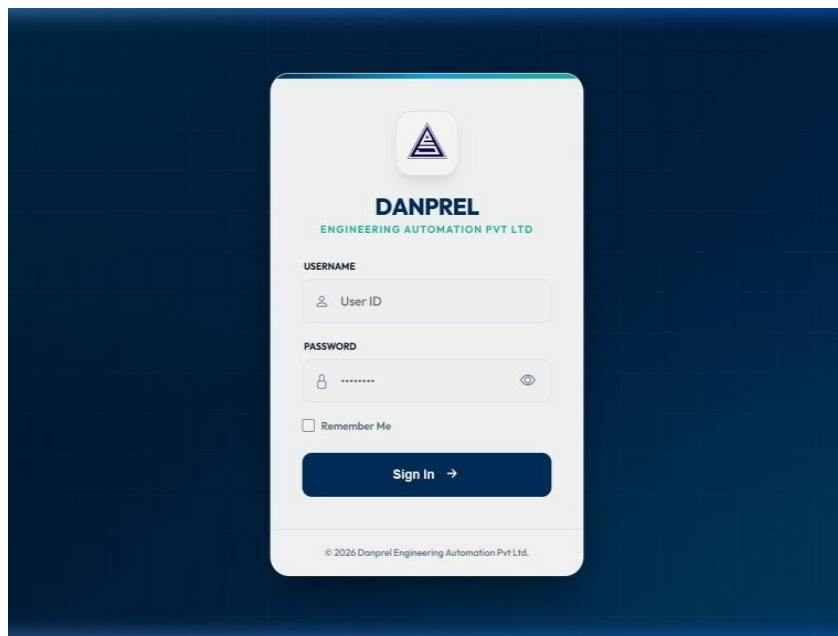

Welcome to the **Danprel Engineering Automation** Resource Allocation Console. This guide will walk you through the various features of the system, including how to manage your manpower, allocate machines, and generate professional reports.

1. Getting Started: Login

To access the system, navigate to the login page. Use your enterprise credentials to sign in.

Credentials:

- Each department has a separate username and password to login.

Login Page

NOTE:

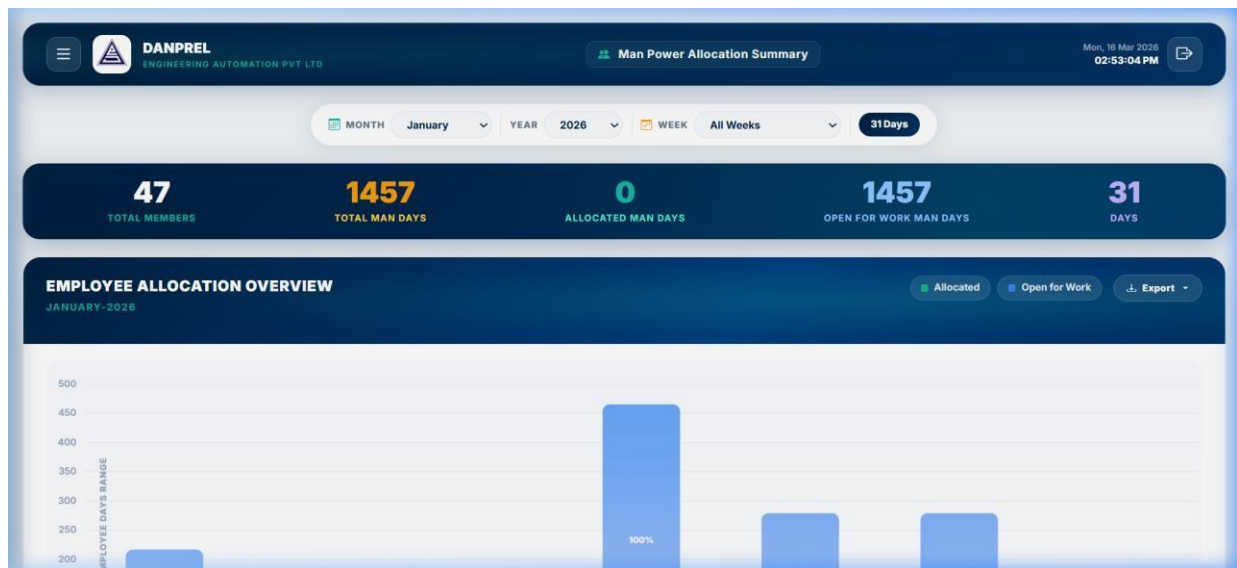

Only you can assign, edit, delete your department details alone other than your department you cannot perform any actions in other department details.

Steps:

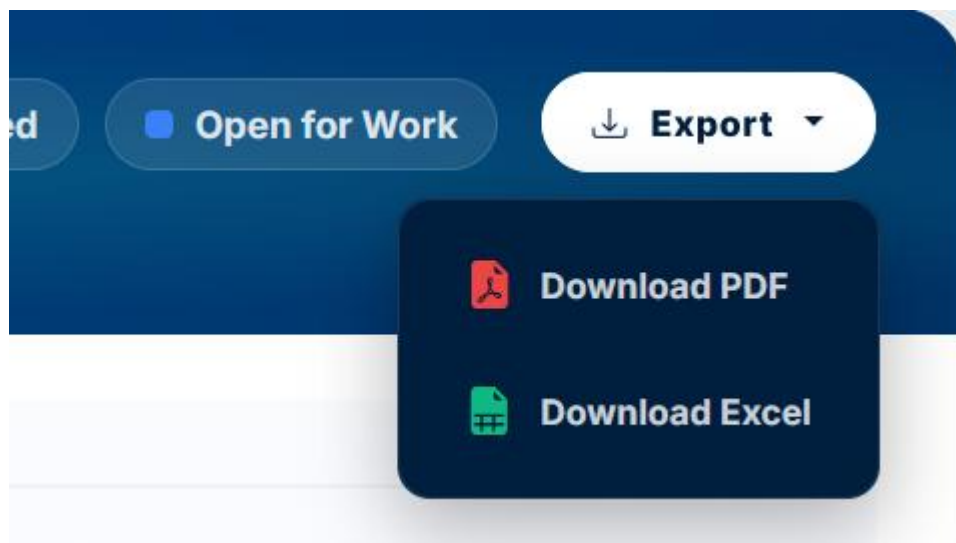

1. Enter the **Username** and **Password** which is given to your department.
2. Click **Sign In**.
3. You will be redirected to the **Resource Summary Dashboard**.

2. Man Power Summary Dashboard

The dashboard provides a high-level overview of your manpower allocation.

Man Power Summary

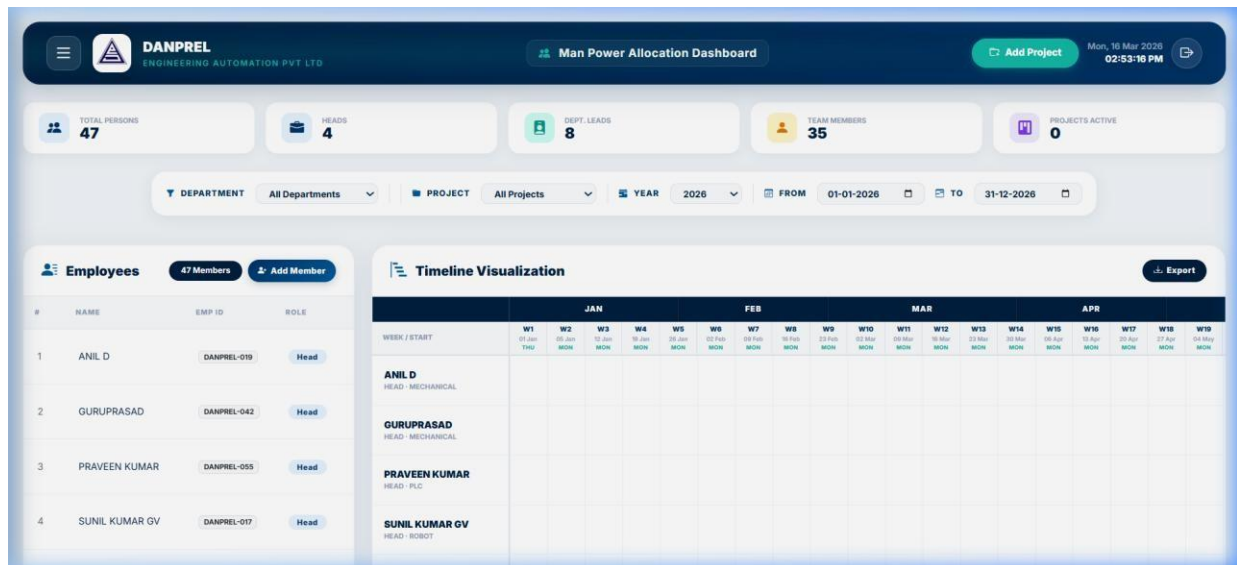

Export button

GURUPRASAD	DANPREL-042	Manager	Mech Assembly	18.7y	   

Assign project

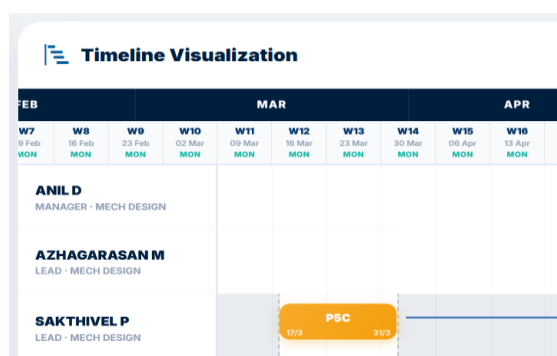

Enter details

Delete the entire details

View Assigned projects

Process of Editing the assigned project :

Step -1: click the bar

Step-2 : Click edit button

Adding a New Member

1. Click the **"Add Member"** button in the Employee Registry section.
2. Fill in the **Full Name**, **Employee Code**, **Role**, **Experience**, and **Department**.
3. Click **Save & Add Member**.

The screenshot shows the 'Add New Member' modal in the DANPREL Man Power Allocation Dashboard. The modal is a white box with a dark blue header and footer. It contains the following fields:

- FULL NAME**: A text input field.
- EMPLOYEE CODE**: A text input field.
- ROLE**: A dropdown menu with 'Team Member' selected.
- EXPERIENCE**: A text input field.
- DEPARTMENT**: A dropdown menu with 'Mechanical Design' selected.

Below the fields, there is a green message: 'Member will be saved permanently'. At the bottom of the modal is a dark blue button with a white icon and the text 'Save & Add Member'.

Add Member Modal

Assigning a Project to a Member:

1. Find the member in the registry table.
2. Click the **Folder Icon (Assign)** button in the actions column.
3. Select the project from the dropdown.
4. Choose the specific **Start** and **End** dates for this member's assignment.
5. Click **Assign**.

The screenshot shows the 'Assign Project to ANIL D' modal in the DANPREL Man Power Allocation Dashboard. The modal is a white box with a dark blue header and footer. It contains the following fields:

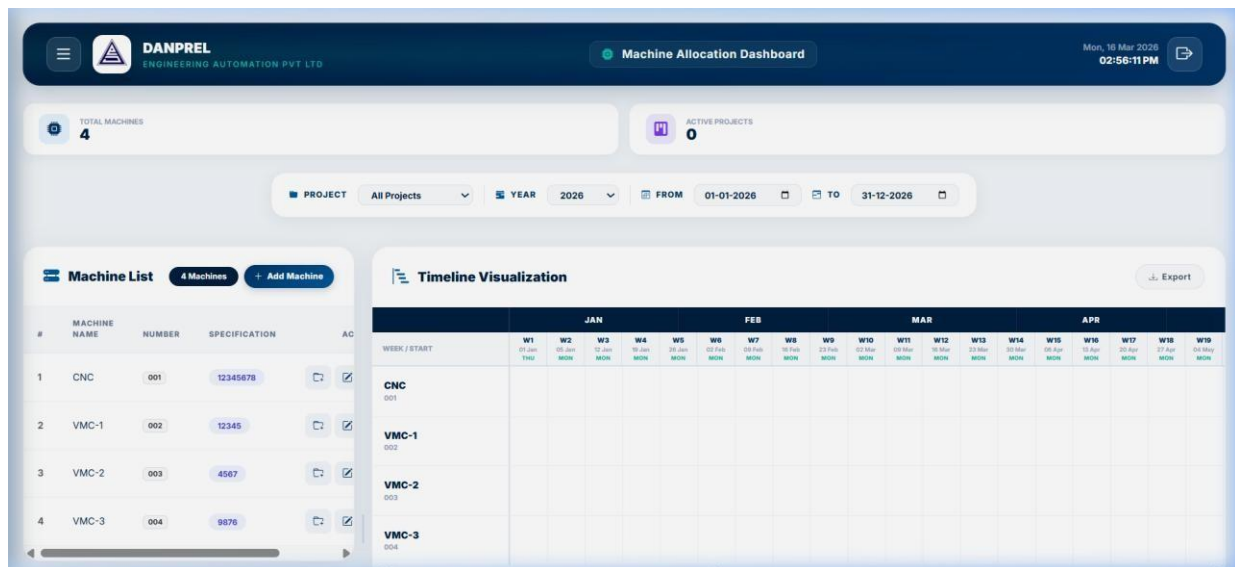

- SELECT PROJECT**: A dropdown menu.
- RESOURCE ALLOCATION PERIOD**: A section with two date pickers labeled 'START DATE' and 'END DATE', both with the placeholder 'dd-mm-yyyy'.

Below the date pickers, there is a message: 'No projects created yet. Click Add Project in the header first.' At the bottom of the modal is a dark blue button with a white icon and the text 'Authorize Assignment'.

Assign Project Page

4. Machine Allocation Dashboard

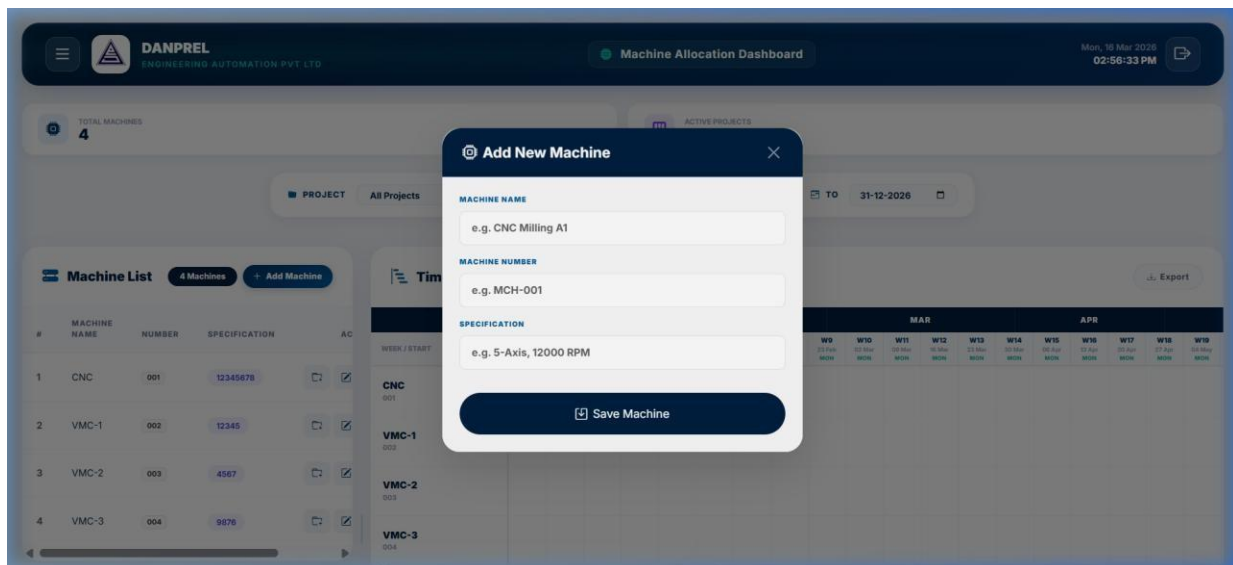

Manage and monitor machine assignments similar to human resources.

Machine Allocation Page

Adding a Machine

1. Click **Add Machine**.
2. Enter the **Machine Name**, **ID/Number**, and **Specification**.
3. Click **Save Machine**.

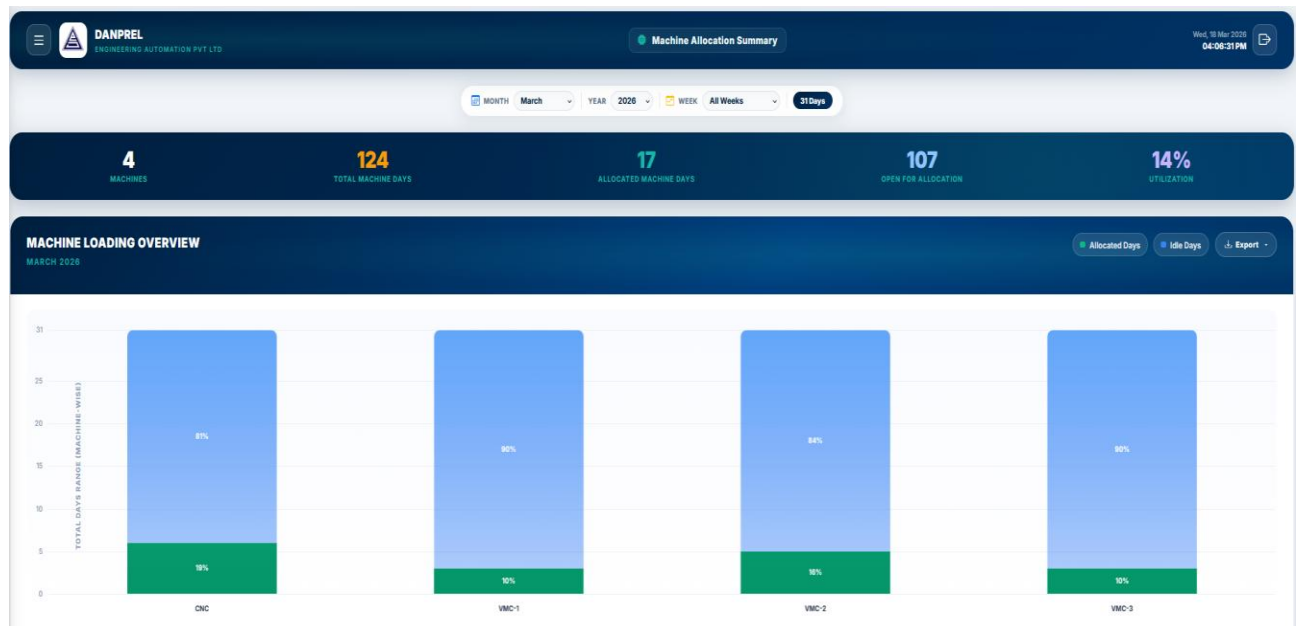

Add Machine Modal

Assigning a Machine

- Click the **Assign icon** in the machine table to assign a project for a specific duration.

5. Machine Power Summary Dashboard

The dashboard provides a high-level overview of your machine power allocation.

Key Features:

- **Stat Chips:** View total machine, total machine days, and open-for-allocation.
- **Filters:** Filter data by Month, Year, and Week to see specific allocations.
- **Chart:** A visual bar chart showing allocation levels over time.
- **Export:** Export the summary data to PDF or Excel (CSV).

6. Monitoring & Timeline

Timeline Visualization (Gantt Chart)

The right side of the allocation pages contains an interactive Gantt chart.

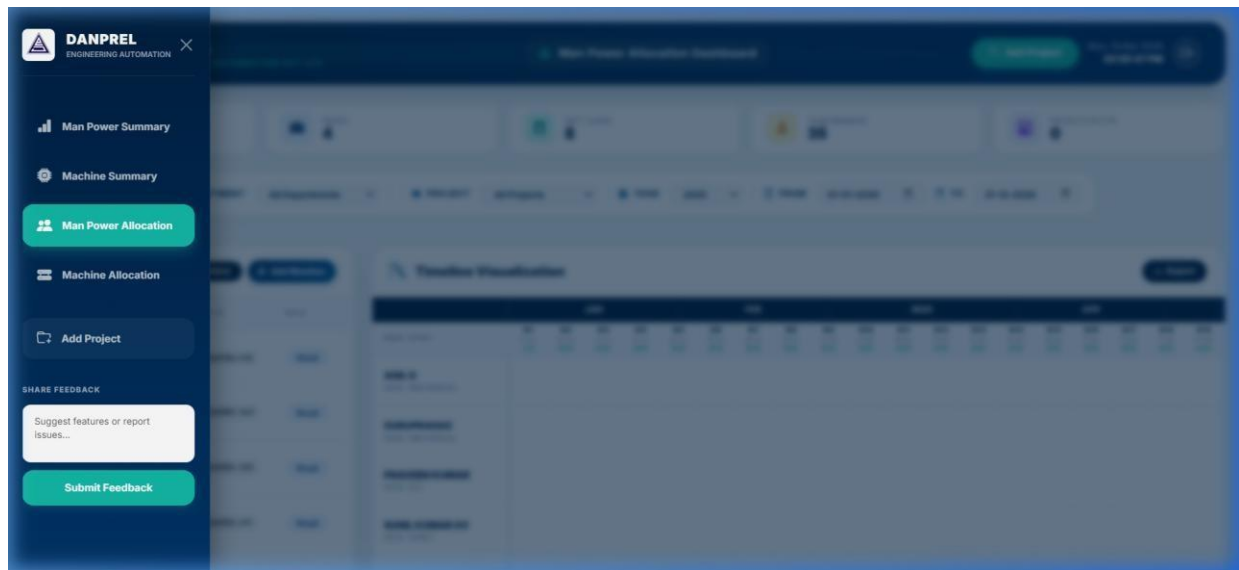

- **Hover** over bars to see project details.
- **Color-coded:** Different projects have unique colors for easy identification.
- **Timeline Filtering:** Use the **From / To** date pickers at the top to zoom into specific months or weeks.

7. Exporting Reports

Click the **Export** button on any dashboard to generate documents.

1. Select your desired date range.
2. Choose **PDF** for a professional presentation with the Gantt chart included.
3. Choose **CSV** for an Excel-compatible data file.
